

## GFE-MCPE-C

### Conventional Manual Call Point

The GFE-MCPE-C is a Conventional Manual Call Point, designed and manufactured to comply with EN54-11, compatible with all GFE Conventional Control panels. A bi-colour LED flashes Green when the unit is connected to a control panel and is illuminated Red when in Alarm.

The unit is supplied complete with a **hinged flap** which protects the trigger element from accidental activation and reduces malicious activations as **two actions** are required in order to activate the device. This unit can be both surface and flush mounted and it can be easily reset using the supplied key after activation.
